---

## Education

Carnegie Mellon University / Pittsburgh PA / August 2019 - Present  
Bachelors of Computer Science and Music

### Relevant Coursework:

Imperative Computation | Computer Music | Functional Programming | Data Structures and Algorithms |  
Computer Systems | Fundamentals of Software Engineering

## Experience

---

### Front-end Developer for Penrose (Pittsburgh PA, February-July 2020)

- Designed and implemented programming interfaces for visualization tools
- Implemented transpilation from user's input code to an existing specification
- Developed user documentation

### Front-end Developer at Neort.io (Japan (Remote), July-August 2020)

- Familiarized myself with a large codebase quickly with little documentation
- Proposed and deployed a non-trivial website feature in just over a month, the programming of which was largely solo
- Effectively worked with developers across both language and timezone barriers

### Audio Processing / Machine Learning Intern at Resonant Cavity (Minneapolis MN, May-August 2019)

- Created tools for deep-learning audio analysis/synthesis inside Python
- Researched and worked with complex vocal-analysis machine learning architectures
- Developed documentation for developed in-house tools
- Presented my work to the company

## Skills

---

### Programming Languages/Frameworks

Git, Html/CSS, Javascript, Typescript, Vue, Axios, C, Python, Numpy, Tensorflow, Keras, Haskell, Bash

### Applications/Environments

Bitwig (digital audio workstation), Max/MSP/Jitter, Godot, Unity, Audacity, Pro Tools, Microsoft Word/Powerpoint, Adobe Indesign

### Other Skills

- 4+ years experience with linux (daily personal use)
- 3+ years of experimental livecoding audio production work involving Haskell and Bitwig
